Severe Weather Outlook Sunday, November 22, 2020

Hazardous Weather

A cold front arriving from the east will provide cooler temperatures on Sunday for portions of south-central New Mexico and far west Texas. While areas along the AZ/NM state line will see very little changes, areas further east will see a modest cool down. Temperatures will be much cooler along the east slopes of the Sacramento Mountains, with foggy conditions and light rain showers possible. Elsewhere, we should see dry weather.

Look for cooler conditions across the region today as a cold front passes through the area.

Hazardous Weather

Cloudy and Cooler Today - Low Rain Chances

Forecast High Temperatures

Weather Forecast Office
Fort Worth, TX

Issued Nov 22, 2020 5:40 AM CST

A cold front is moving through North Texas this morning and will usher in some cooler air through this afternoon. It will remain mostly cloudy through the day and we should see a few scattered showers develop later this morning.

Partly to Mostly Cloudy & Warm

Morning fog; a few showers north and east; cold front arrives late this afternoon.

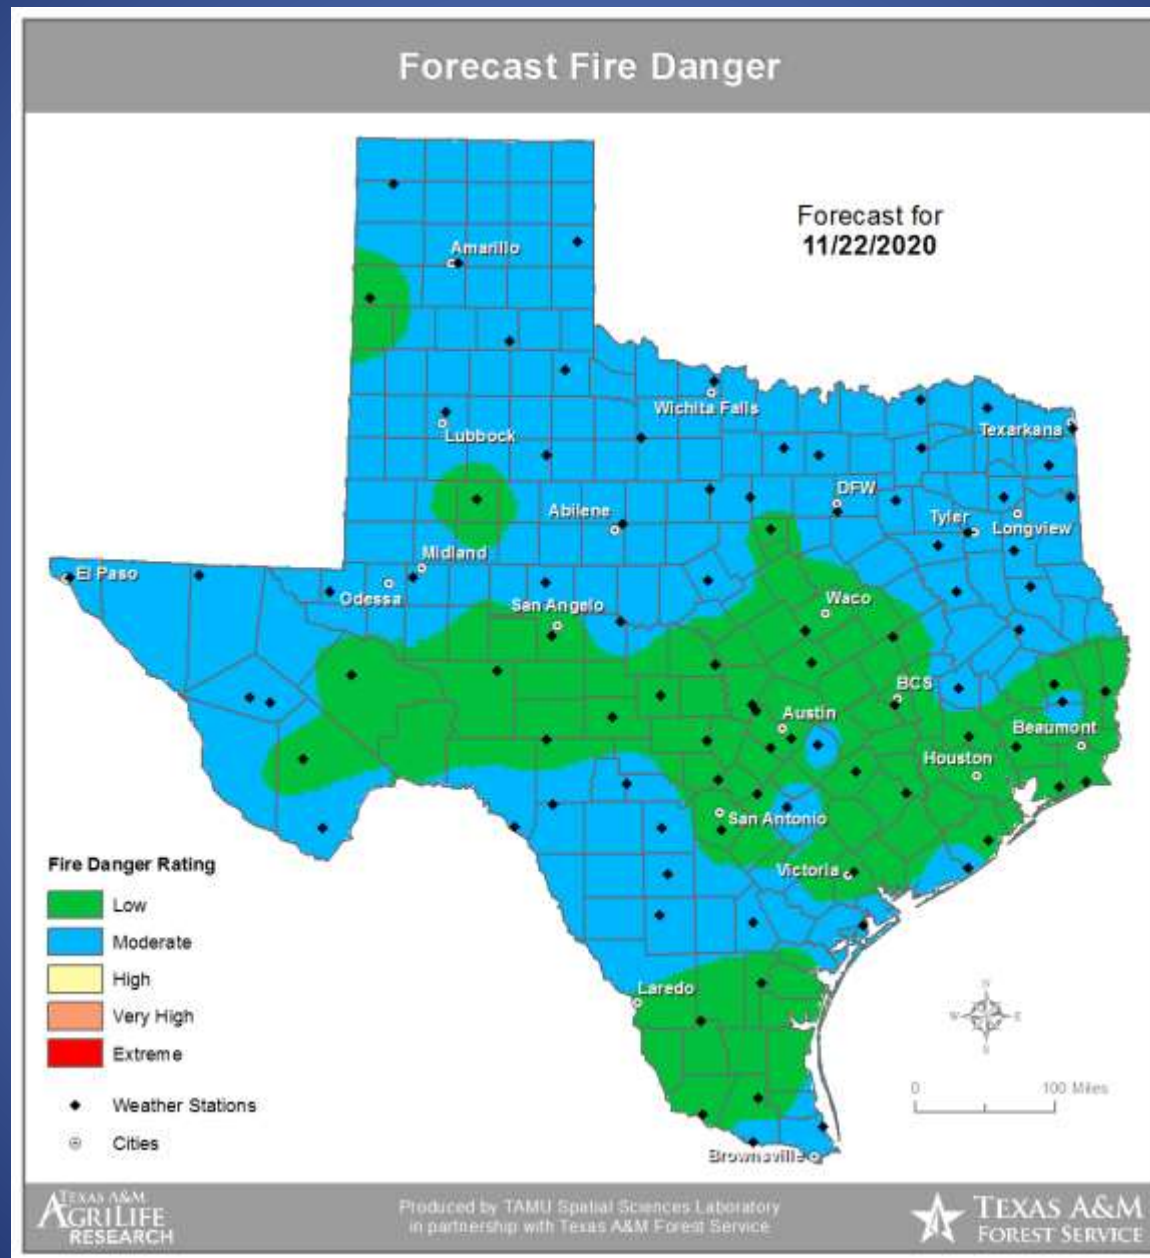

Weather Forecast Office
Austin/San Antonio, TX

Issued Nov 22, 2020 5:15 AM CST

Some patchy fog and a few showers can be expected this morning from the Hill Country eastward into the I-35 corridor and coastal plains. A cold front will move into the Hill Country late this afternoon and could bring an isolated shower this afternoon. Otherwise, look for partly to mostly cloudy skies and another warm day with highs in the 70s to near 80.
